1 Introduction

Welcome to the Wingspann Global Supply Chain Guide! This document has been prepared to help users quickly understand and perform the day-to-day operations required to manage materials, order stock, and track inventory.

In this manual, we will cover the entire workflow from the moment a manufacturer requests a material, checking the inventory, placing a purchase order, receiving the goods, to finally billing and passing it on to the finance team.

Note

The instructions inside this document assume you are logged into the ERP system as the Supply Chain Executive.

2 Step 1: Checking Inventory

When a manufacturer requests a specific material for production, your very first step is to check if we already have it in stock.

1. Open the **Inventory** application from the main dashboard.
2. Click on **Products** in the top menu to view all items.
3. Search for the requested material. If the “On Hand” quantity is sufficient, you can simply issue the material for production. If it is 0 or low, you must order more.

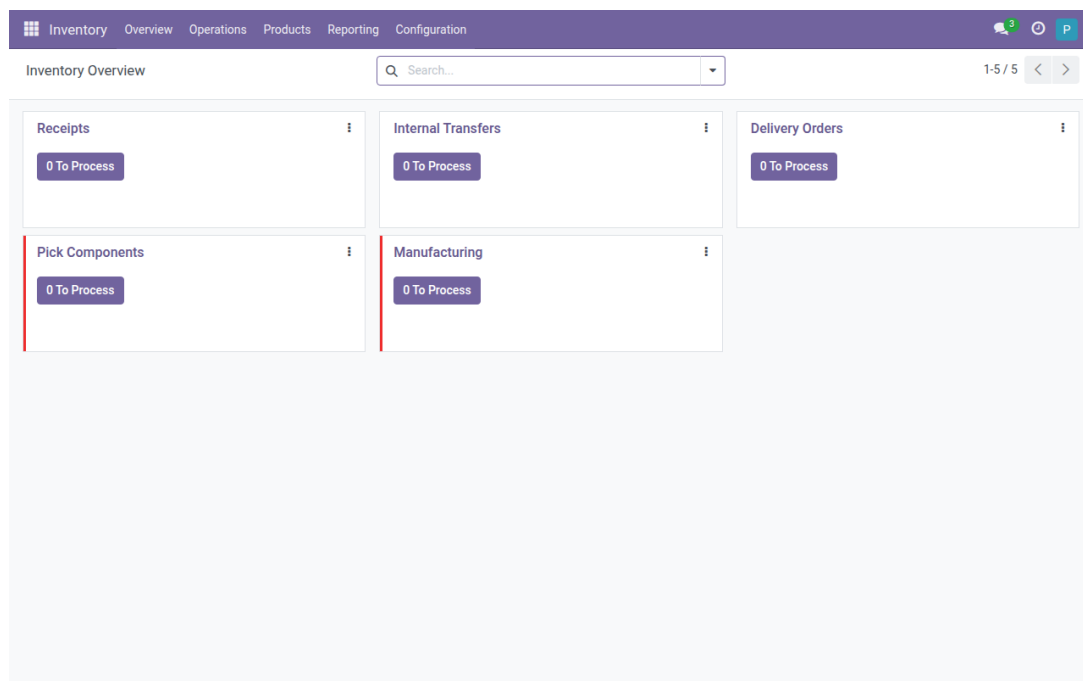

Figure 1: Inventory Dashboard showing the initial state.

3 Step 2: Creating a Purchase Order (PO)

If the requested material is out of stock, we must order it from our supplier.

1. Open the **Purchase** application from the main dashboard.
2. Click the **New** button to create a Request for Quotation (RFQ).
3. Under the **Vendor** field, type the name of the supplier (e.g., *Dazzle Robotics*).
4. Under the **Products** tab, click **Add a product** and select the required material.
5. Enter the quantity and unit price. Click **Save**.

CGST: ₹ 1,665.00

Figure 2: A new Draft Purchase Order with vendor and product selected.

4 Step 3: Confirming and Printing the PO

Once the details are finalized, it is time to formally confirm the purchase order. This locks in the prices and notifies the system that a delivery is expected.

1. On the Purchase Order page, click the **Confirm Order** button.
2. The status will change from RFQ to **Purchase Order**.
3. Click the **Print** icon at the top and select **Purchase Order** to generate the PDF.

Warning

If the Purchase Order exceeds a certain monetary limit, it may require Manager Approval before it becomes confirmed. The manager will be notified automatically.

Figure 4: The Generated Purchase Order PDF Document.

5 Step 4: Receiving the Goods

When the physical goods arrive at our warehouse, the inventory must be updated so the manufacturer can finally use the items.

1. From your confirmed Purchase Order, look for the **Receipt** smart button in the top right corner and click it. (Alternatively, go to the Inventory app and click Receipts).
2. You will see a list of the expected items. Ensure the physical quantity received matches what is on the screen.
3. Click **Validate** to officially bring the items into our stock.

The screenshot displays the 'Detailed Operations' interface for a receipt. At the top, there's a navigation bar with 'Purchase', 'Orders', 'Products', 'Reporting', and 'Configuration'. Below this, a header bar shows 'New' and 'Requests for Quotat...' with a dropdown for 'WH/IN/00012'. A 'Detailed Operations' tab is active. The main content area has buttons for 'Print Labels', 'Print', and 'Return' on the left, and 'Draft', 'Ready', and 'Done' on the right. The receipt details section shows 'WH/IN/00012' with a star icon. Below this, 'Receive From' is 'Dazzle Robotics' and 'Destination Location' is 'WH/Stock'. 'Scheduled Date' is '07/22/2026 10:28:22', 'Effective Date' is '07/22/2026 10:28:46', and 'Source Document' is 'WSGPL/2026-27/07/010'. A table lists the receipt items:

Product	Demand	Quantity
6S 24000mAh Lithium Ion Battery	1.00	1.00

At the bottom, there are buttons for 'Send message', 'Log note', and 'Activities'. A status bar at the very bottom shows 'Today' and a user profile for 'Pranjal Chandekar' with a status of 'Ready' and a 'Done' button.

Figure 5: The Receipt has been successfully validated and the inventory is updated.

6 Step 5: Creating the Vendor Bill for Finance

Now that the goods are received (or sometimes, if advance payment is required, before the goods arrive), you must create a Vendor Bill to pass onto the Finance team for payment approval.

1. Go back to your confirmed Purchase Order.
2. Click the **Create Bill** button at the top.
3. A draft bill will be generated. Fill in the **Bill Date** with today's date.
4. Click **Confirm**. The bill is now official and will be queued up for the Finance Officer to review and pay.
